## Skills

PHP, Laravel, Symfony, PostgreSQL, REST, Docker, Kubernetes, Grafana, PHPUnit

Proactive mindset - Strong communication - Detail-oriented - Team collaboration

## Profile

Senior Backend Developer with 9+ years of experience in backend and full-stack web development across high-load, data-driven, and enterprise-level systems. Specializing in PHP 8+, Symfony, Laravel, and PostgreSQL, with a strong focus on DDD, modular monoliths, and microservices architectures. Proven track record in financial, analytics, and data visualization platforms. Passionate about clean architecture, SOLID principles, and engineering excellence.

## Professional Experience

Since December  
2020

### PHP Developer

[signNow](#) (AirSlate/pdfFiller) Kyiv, Ukraine (+remotely)

- Built and maintained scalable B2B and B2C applications of SignNow Payment Systems with Symfony and Laravel backends using PostgreSQL, Redis, Horizon, Grafana and RabbitMQ.
- Designed modularized REST APIs and background job ecosystems with Laravel Horizon and queues, optimized queries to databases
- Processing mobile in-app purchases from App Store and Google Play
- Delivered secure deployments with Docker containers (Kubernetes), GitHub Actions, and test automation.
- Implemented Hexagonal architecture with Domain and Application layers to facilitate maintainability.
- Integrated financial data APIs and admin dashboards

From March 2020  
to November 2020

### Middle PHP Developer

[CLEVER BUSINESS MANAGEMENT](#) Brovary, Ukraine

- Development of CRM, ERP, SaaS systems
- Built and improved API for web-systems using PHP and Laravel/Lumen frameworks
- Built and improved MicroService for SuiteCRM using Symfony and RabbitMQ for the credit scoring processing in one of the Ukrainian banks
- Created and maintained Laravel Nova based web-projects
- Optimized queries to databases, added queues and caching layers with Redis
- Rewritten the source code of the initial project

## About me

- 33 years old
- Married
- Ukrainian

## Portfolio

### Some Works

[oleksandr-roskovynskyi.github.io/#portfolio](#)

## Code Skills

### PHP 7/8

### Databases

PostgreSQL 15+, MySQL 8.0+, MongoDB, Redis, Memcached

### Laravel / Lumen / Symfony

### Messaging & Communication

RabbitMQ (AMQP), Kafka, REST, JSON-RPC, gRPC, WebSockets, GraphQL

### VueJS / Vuetify

### Architecture & Patterns

Domain-Driven Design (DDD), Hexagonal / Layered Architecture, Microservices, SOA, SOLID, KISS, DRY, YAGNI

### DevOps & Infrastructure:

Docker, Docker Compose, Kubernetes (kubectl, troubleshooting, scaling), CI/CD (GitHub Actions, GitLab CI, Jenkins), Grafana, Loki, NGINX

## Professional Experience

From March 2015  
to February 2020

### Full Stack PHP Developer / Social engineering [Ministry of Defense Ukraine](#) Kyiv, Ukraine

- Creation of complex automation systems for social networks (Laravel/VueJS)
- Created and maintained WordPress based sites and Templates
- Development and improvement of internal software
- Installation, setup, and administration of server hardware and systems
- OSINT

Since July 2017

### Volunteer Work [Web Design & Web Development](#) Kyiv, Ukraine

- Assistance in the organization of technical conferences Fwdays.
- Creating websites for acquaintances.

## Education

Since January 2019

### Fwdays [PHP fwdays](#) Kyiv, KV, Ukraine

Regular participant of the PHP Fwdays and architecture  
<https://fwdays.com/event/php-fwdays-2025/user/c490b9acdf73af7caeb406611ce71a09bfcbbd8b9d04033b1b60b4bdb2b1f72/certificate/standard>

From January 2020  
to February 2020

### DIVE INTO REFACTORING [REFACTORING.GURU](#) Online

- Refactoring Process
- Dirty/Clean Code
- Code Smells. Refactoring Techniques

CERTIFICATE of COMPLETION  
(<https://refactoring.guru/cert/r/Mjl1MjM>)

From July 2019 to  
September 2019

### FULL STACK PHP TRAINING COURSES [BINARY STUDIO ACADEMY](#) Distance Learning Courses

- PHP 7. Laravel - (1 MONTH)
- ES6. VueJS - (0,5 MONTH)
- Group project Metrica - collects data from web pages, handle it and visualize [github.com/BinaryStudioAcademy/bsa-2019-metrica](https://github.com/BinaryStudioAcademy/bsa-2019-metrica) - (1,5 MONTH)

From January 2017  
to 2019

### PHP Training Courses Online Learning Courses

- PHP. Level 1. Web-development fundamentals - (24 AH)
- PHP. Level 2. Web-sites development with MySQL - (24 AH)
- PHP. Level 3. Professional development with PHP7 - (24 AH)

From April 2016 to  
May 2016

### Wordpress Content Management System Online Learning Courses

- Wordpress. Level 1. Creating a Website. Content Manager - (16 AH)
- Wordpress. Level 2. Creating and maintaining sites with complex structure - (16 AH)
- Web-mastering. Configuring Web Servers - (24 AH)

From August 2010  
to February 2015

### Systems Engineering [Zhytomyr Military Institute of the State University of Telecommunications](#) Zhytomyr, Ukraine

- Graduated with honors

## Code Skills

**Testing** PHPUnit, Playwright (E2E)

**Version Control** Git, GitHub, GitLab, Bitbucket (PR-based workflow, code reviews)

## Languages Skills

### Ukrainian

Native

### English

Intermediate
